JITHIN VARGHESE

Product Manager | Cloud, SaaS & Platform Products

jithinvarghese.varghese8@gmail.com | +91 8943657704 | Bengaluru, India | LinkedIn

PROFESSIONAL SUMMARY

Product Manager with **6+ years** building scalable platform and SaaS products across IoT, telematics, and enterprise cloud (Azure). Owns roadmaps end-to-end, partners with architects on NFRs and technical tradeoffs, and turns data into **30%+** gains in adoption and efficiency. Equally comfortable in API-driven architecture discussions and executive stakeholder rooms.

PROFESSIONAL EXPERIENCE

Product Manager
December 2023 – Present

Darby Telematics | Bengaluru, India

- Own product vision and roadmap for an IoT telematics platform serving **500,000+ vehicles**; partner with architects on system architecture and NFR definitions tied to business OKRs
- Led an OTA software update platform from ideation to launch; aligned engineering leads on system design and technical tradeoffs to ship reliably at scale
- Drove an **API-driven automation platform** that delivered **200%+** process efficiency gains; authored technical documentation and led build-vs-buy evaluation with the architecture team
- Built analytics dashboards that surfaced adoption and reliability insights, guiding roadmap prioritization
- Led cross-functional teams of **8+ engineers** and served as technical reviewer during validation, cutting support tickets by **30%**
- Ran Agile ceremonies (Scrum/Kanban), defined quality metrics and entry/exit criteria, and communicated technical risk to executive leadership

Product Manager
January 2020 – November 2023

Spektra Systems | Bengaluru, India

- Owned the end-to-end lifecycle of an enterprise SaaS platform, driving **~30% feature adoption** through data-informed prioritization and iterative releases
- Translated a **200+ story backlog** into shipped releases; partnered with engineering and QA on technical specs, acceptance criteria, and timelines
- Authored PRDs and technical documentation; aligned with the architecture team on system design and API specifications
- Drove **SOC 2 / COPPA compliance** with security teams, unlocking entry into the **K-12 education vertical**

Cloud Solutions Consultant
June 2016 – December 2019

Spektra Systems | Bengaluru, India

- Delivered cloud POCs and technical demos that accelerated **Microsoft Azure sales 3X**; established a consultative selling framework for enterprise accounts
- Optimized Azure infrastructure architecture for **45% cost reduction** (**$55K → $30K** annually) while improving performance
- Built **50+ technical labs** and enterprise demos, driving product adoption across global enterprise users

CORE COMPETENCIES

Product Strategy & Roadmaps • Technical Architecture Collaboration • NFR Definition • OKRs & KPI Tracking • Cross-Functional Leadership • Agile & Scrum/Kanban • Technical Documentation • Data-Driven Decision Making • Stakeholder Management • API & Platform Products • Systems Thinking • Executive Communication

TOOLS & TECHNOLOGIES

Azure • REST APIs • SQL • Power BI • Figma • Balsamiq • Notion • ClickUp • Playwright • Chrome DevTools • Claude • Prompt Engineering

EDUCATION

Product Management Program — 2020 – 2021

Duke Corporate Education via upGrad

B.Tech in Computer Science & Engineering — 2012 – 2016

College of Engineering Chengannur

PORTFOLIO & WRITING

Personal Portfolio
