JITHIN VARGHESE

Product Manager | Connected Mobility · IoT · Platform SaaS

jithinvarghese.varghese8@gmail.com | +91 8943657704 | Bengaluru, India | LinkedIn

PROFESSIONAL SUMMARY

Product Manager with 6+ years building connected-vehicle and SaaS platforms across IoT, telematics and enterprise cloud. I own roadmaps end to end and partner with architects on system design and NFRs. Recently doubled a telematics platform from 300K to 600K vehicles and led an OTA program that cut a fleet-wide recall's cost by ~89% by fixing it remotely instead of through service centers. Equally at home in API architecture discussions and executive stakeholder rooms.

PROFESSIONAL EXPERIENCE

Product Manager

December 2023 – Present

Darby Telematics | Bengaluru, India

- Grew the IoT telematics platform from **300,000 to 600,000 vehicles in 2 years**, owning roadmap and partnering with architects on system architecture and NFR definitions tied to business OKRs.
- Led an OTA update platform that remotely fixed an instrument-cluster defect on **~60,000 vehicles, cutting fleet-wide recall cost by ~89%** and eliminating service-center dependency.
- Built an API-driven automation platform for M2M SIM recharges that **cut processing from 48 hours to 6 hours** and now handles 120 requests per minute.
- Led cross-functional teams of 8+ engineers as PM and technical reviewer through validation, **cutting support tickets by 30%**.

Product Manager

January 2020 – November 2023

Spektra Systems | Bengaluru, India

- Owned an enterprise SaaS platform end to end, driving **~30% feature adoption** through data-informed prioritization and iterative releases.
- Drove **SOC 2 / COPPA compliance that unlocked the K-12 vertical, onboarding 10 schools within 2 months** of launch.
- Translated a 200+ story backlog into shipped releases; authored PRDs and aligned with the architecture team on system design and API specifications.

Cloud Solutions Consultant

June 2016 – December 2019

Spektra Systems | Bengaluru, India

- Delivered cloud POCs and technical demos that **accelerated Microsoft Azure sales 3X** across enterprise accounts.
- Re-architected Azure infrastructure for a **45% cost reduction ($55K → $30K annually)** while improving performance.
- Built 50+ technical labs and enterprise demos, driving product adoption across global enterprise users.

CORE COMPETENCIES

Platform & API Products • Connected Vehicle / IoT / Telematics • Product Strategy & Roadmaps • Technical Architecture & NFRs • OKRs & KPI Tracking • Data-Driven Prioritization • Cross-Functional Leadership • Stakeholder & Executive Communication • Agile · Scrum/Kanban

TOOLS & TECHNOLOGIES

Azure • REST APIs • SQL • Power BI • Figma • Balsamiq • Notion • ClickUp • Playwright • Chrome DevTools • Claude • Prompt Engineering

EDUCATION

Product Management Program Duke Corporate Education via upGrad 2020 – 2021

B.Tech in Computer Science & Engineering College of Engineering Chengannur 2012 – 2016

PORTFOLIO & WRITING
